

ARIZONA SCHOOL FACILITIES BOARD

SECTION 00400

**BID FORM**

**The following SCIP exclusion language MUST be added to the Bid Form (created and provided by the Architect / Engineer).**

The undersigned understands that the Owner has elected to insure this Project under an Owner Controlled Insurance Program and that the undersigned must exclude all of its normal cost for insurance coverages provided by the Owner and identified in Section 11.1.1 of the General Conditions. The undersigned certifies that it has excluded \$\_\_\_\_\_ from its Bid for such costs and that this amount is an accurate, complete and current valuation of such costs as of the date of undersigned's bid. Although the amount withheld will not be considered by the ASFB when it determines the lowest responsible bidder, this insurance pricing data is essential to determine that the price withheld by the contractor for insurance is reasonable and fair. The undersigned also understands that if this certification is determined to be defective, the Contract sum may be adjusted by the amount of the defect plus related overhead and profit or fee.
